The **G-SERIES** is a true no-till drill that can plant a variety of seeds and blends into even the toughest soil conditions. Featuring tempered cutting discs spaced at 7.5 inches apart, the **G-SERIES** slices into the soil, allowing the seeding mechanism to plant the seeds into the created slits. The solid, rubber packing wheels trail behind the discs to close up the soil, providing outstanding seed to soil contact even when cutting through standing vegetation. Plus, the infinitely-variable gearbox and seed calibration system make the **G-SERIES** easy to use and extremely accurate. Get ready for a successful hunting season with the PH Outdoors **G-SERIES** no-till drill!

<b>G-SERIES</b> NO TILL DRILL				
	WORKING WIDTH	37.5"	60"	90"

OPTIONAL PARTS	1. WHEEL KIT WITH HYDRAULIC OPTION FOR TOWING 2. SEED ROW COVER PLATES FOR DIFFERENT ROW SPACING (15", 22.5", 30") 3. 70 LBS SUIT CASE WEIGHTS TO ADD FOR VARIOUS SOIL CONDITIONS 4. PRE-CUTTING DISCS IN FRONT OF THE SEEDING ELEMENTS 5. SEED HOPPER DIVIDER PLATE FOR PLANTING DIFFERENT SEEDS PER ROW			

The PH Outdoors **CRIMPER** is a durable, efficient tool for managing cover crops. Its drum with angled blades crimps and flattens the stems, creating a natural mulch layer that suppresses weeds, conserves moisture, and enhances soil health. Ideal for no-till food plots & farming, it helps improve soil quality while reducing the need for herbicides.
